## 7.1.2

### **Environmental Consciousness and Sustainability and Divyangjan friendly Initiative**

The Institution has facilities and initiatives for

- 1. Alternate sources of energy and energy conservation measures**
2. Management of the various types of degradable and non-degradable waste
3. Water conservation
4. Green campus initiatives
5. Disabled-friendly, barrier free environment

### **A. Use of LED Bulbs/power efficient equipment**

College has given priority to installation LED light in the campus, maintenance team work regularly on this section. They replace fluorescent tubes to LED and they use LED according to BEE Rating system for more power saving. College is using 20W LED Ceiling Luminaire and 36W LED Tube. College using 60W Wall fan for specific air movement, and 60W ceiling fan.

For new construction college always recommend energy saving appliances and equipment.

**Supporting Documents-** Geotagged Photograph of Campus Interior  
Purchasing Bill of Electrical Accessories  
Electricity Bill copy

**Note-** LED luminaries has not reflect to much in electricity bill because ratio of lighting in electric consumption is low and Electric city bill is depend on unit rate.

LED installation in the campus administration area. Each ceiling Luminaire have 20W.

  
Dr. D Y Patil Pratishthan's  
Padmashree Dr. D Y Patil College of Architecture,  
Akurdi Pune

LED installation in the staff room. Each ceiling Luminaire have 20W and wall fan have 60W.

Classroom have replaced LED tube from Fluorescent tube. Power wattage of each tube is 36W.

	<b>Total</b>	<b>320,982</b>	<b>6,664,219</b>

Summary of Electricity bills & CO2 emission of D Y Patil Educational Complex (Source-Green Audit report)

## B. Solar Panel

D Y Patil Educational Complex has been taken initiative in the field of alternate source of energy generation. College has installed roof top solar panel system in On grid mode of capacity 350kWp. Detailed performance sheet of Solar Panel attached in Green Audit.

Geotagged Photograph of On grid Solar PV Plant at D Y Patil Educational Complex

No	Particulars	Value	Unit
1	Annual Energy Purchased from MSEDCL	320,982	kWh/Annum
2	Energy Generated by Roof Top Solar PV System	400,572	kWh/Annum
3	Total Energy Requirement of College	721,554	kWh/Annum
4	% of Usage of Alternate Energy to Annual Energy Requirement	56	%

Computation of % generation of energy through alternate renewable sources and consumption of energy development Authority. (Source-Energy Audit Report)

  
Dr. D Y Patil Pratishthan's  
Padmashree Dr. D Y Patil College of Architecture,  
Akurdi Pune

### C. Daylight

According to Science, we know natural light is more efficient in comparison of artificial light. In Major part of campus, daylight access in rich amount throughout day to studios, lecture hall, administration area, staff room, corridor and toilets etc.

Daylight reducing electrical load because lights are not used when daylight receive in rich amount. College has large window façade and fanlight in studios and lecture hall.

College campus is planned on central based courtyard and high ceiling height through this passive technique corridor doesn't required electrical lighting in working hours except exceptional case.

College has used special type of roller blind for window dressing for controlled daylight ingress.

Through this initiative we save electricity.

Studios receives Daylight from window level and fanlight level.

Studios receives Daylight from window level and fanlight level.

Administration Area receiving daylight in excess amount through large window opening.

  
Dr. D. Y. Patil Pratishthan's  
Padmashree Dr. D Y Patil College of Architecture,  
Akurdi Pune

Staff room receiving natural light through large window opening.

For control daylight ingress use roller blind as window dressing.

*Dr. D Y Patil Pratishthan's*  
Padmashree Dr. D Y Patil College of Architecture,  
Akurdi Pune

## D. Use of Dimming Sensor

College campus has adopting technology vigorously, For saving in electrical energy college campus has installed dimming sensor in LED light. In campus has different types of requirement like studios, lecture hall etc. In these type of infrastructure, we have control on electricity like- if class is going on then electric consumption is start but when no one in the class every electrical appliance in switch off manually. This type of function has followed in every space except toilets and corridor, where movement is frequent. Energy saving from these type of spaces are challenging, Campus has adopted technology of motion sensor. We installed dimming sensor (electronic circuit) in LED tube.

**How it's work-** Electronic circuit device named as dimming sensor installed in lighting fixture, after installation sensor catch human movement. When any human movement around the lighting fixture then light brightness level is increases and when there is no movement in particular space then lighting fixture is dimmed (functioning like fan regulator) through this electronic device we save lot of energy.

- Dimming Sensor is installed in Male and Female toilets at ground floor.

Fitting of dimming Sensor at male toilet Ground Floor

## E. Additional Information

College has taking initiative in energy conservation, literacy and consciousness between among students, faculties, staff members and visitor's through various signboard, slogan at strategic location.

Faculties of DYPCOA published a book on "Green Energy and Sustainable Development" to educate people.

Faculties associated in book- Ar. Abhinav Srivastav, Ar. Madhavi Karangale

Cover page of published book- **Green Energy and Sustainable Environment**- Alpha International Publisher/ ISBN-978 93 95978 93 4

Book is based on various types renewable energy resources, Solar Energy, Wind Energy and Bio-gas Energy generation are main content of the book.

Geotagged Photograph of Book reveal ceremony.

Geotag Photograph of "save energy" signage at studios.

Geotag Photograph of "save energy" signage at studios.

## 7.1.2

### **Environmental Consciousness and Sustainability and Divyangjan friendly Initiative**

The Institution has facilities and initiatives for

1. Alternate sources of energy and energy conservation measures
2. **Management of the various types of degradable and non-degradable waste**
3. Water conservation
4. Green campus initiatives
5. Disabled-friendly, barrier free environment

## A. Solid Waste Management

College has taking strong action in waste management. First level college doesn't allow and promote any type of single used plastic. Second level college has system of waste segregation at source point. For achieving second level college has provide segregated waste bin at strategic location in the campus.

Photograph of Waste Collection Bins

The solid waste is segregated at source. Waste collection bins are placed at various points.

Geotagged photograph of use dustbin signage placed at every strategic location.

*[Handwritten Signature]*  
Dr. D Y Patil Pratishthan's  
Padmasree Dr. D Y Patil College of Architecture,  
Akurdi Pune

### Organic Waste Management

D Y Patil Educational Complex area is huge. In complex generate oraganic waste (leaf and plant leaves ) in big amount. College campus generate organic fertilizer through this organic waste with the help of vermicompost unit.

D Y Patil Educational Complex installed vermicompost unit for managing organic waste of campus. The output of this unit is used in development of campus landscape.

Geotagged photograph of vermicompost unit at D Y Patil Educational complex.

  
Dr. D Y Patil Pratishthan's  
Padmashree Dr. D Y Patil College of Architecture,  
Akurdi Pune

Geotagged photograph of vermicompost unit at D Y Patil Educational complex.

Geotagged photograph of vermicompost unit at D Y Patil Educational complex

## B. Liquid Waste Management

The College has installed Sewage Treatment Plant of capacity **100 KLPD** (Source-Energy Audit). The treated water is used for gardening purpose.

Photograph of Sewage Treatment Plant

  
Dr. D Y Patil Pratishthan's  
Padmashree Dr. D Y Patil College of Architecture,  
Akurdi Pune

Geotagged photograph of Sewage treatment plant at D Y Patil Educational Complex.

Geotagged photograph of Aeration tank in STP at D Y Patil Educational Complex.

### C. Bio-medical Waste Management

As we know female have mensuration cycle. In this time period they generate bio-medical waste. College strength in ratio of male female is half. To manage of this type of waste is very challenging for institute. For managing bio-medical waste college has installed incinerator in Female toilet at college campus.

Geotagged photograph of incinerator at female toilet of college campus.

## 7.1.2

### **Environmental Consciousness and Sustainability and Divyangjan friendly Initiative**

The Institution has facilities and initiatives for

1. Alternate sources of energy and energy conservation measures
2. Management of the various types of degradable and non-degradable waste
3. **Water conservation**
4. Green campus initiatives
5. Disabled-friendly, barrier free environment

## A. Rain Water Harvesting

College campus has understand the value of natural resources. For maintaining water table college has taken initiative to catch the water throughout the year and then filter that water after filtration process water directly recharge the ground water.

Satellite image of college campus, red patch shown catchment area of rain water harvesting.

Total quantity of run off

$$Q = C.I.A \text{ (According to National Building Code 2016)}$$

Total catchment area A= 570 sq.m. approx. (Google earth)

Co-efficient for concrete slab= .80-.90 (USGBC)

Intensity of rainfall throughout the year = 76.3 cm(0.763 m)

Total quantity of water=348 m<sup>3</sup> (348000 litre) approx.

Note- value is approx. final value may be differ for environment factor.

Satellite image shown location of borewell

Geotagged picture of rain water harvesting chamber to borewell.

Geotagged Photograph of Filter chamber connected to borewell.

Geotagged photograph of downpipe second location.

Geotagged photograph of downpipe to well.

## B. Pressmattic Tap

Generally institution building consume the water in the washroom. To avoid waste of water college has installed pressmattic type of faucet in washroom. Through this type of faucet we can control wastage of water because faucet has operate for limited time period after that period faucet automatically turned off.

Geotag photograph of Boys Toilet at Ground Floor

Geotagged Photograph of pressmattic tap in toilets.

Dr. D Y Patil Pratishthan's

Padmashree Dr. D Y Patil College of Architecture,  
Akurdi Pune

### C. Aerator

Installation of Aerator in faucet is technical initiative by college campus, through this small advancement we can save litres of water from wastage. Aerator decrease the operating time of faucet.

In practical perform by self- before installation of aerator operating time of faucet is around **8 second** (too high) total amount of water discharged approx. 450 ml.

After installation of aerator operating time of faucet is between **1-2 second** and total amount of water discharged approx. 100 ml.

Installation performed by an expert in female toilet at college campus.

  
Dr. D Y Patil Pratishthan's  
Padmashree Dr. D Y Patil College of Architecture,  
Akurdi Pune

## D. Irrigation Method

Dr. D Y Patil Educational Complex have huge green cover **19,425 sq.m.** (measure in Google Earth Pro). For maintain this green cover campus required huge amount of water. To reduce demand of water for gardening college campus adopted sprinklers irrigation for grass cover and drip irrigation for trees and plant.

Geotagged Photograph of sprinklers irrigation system.

Satellite image of campus showing green cover patches.

Geotagged Photograph of Drip Irrigation System for saving water from evaporation.

## 7.1.2

### **Environmental Consciousness and Sustainability and Divyangjan friendly Initiative**

The Institution has facilities and initiatives for-

1. Alternate sources of energy and energy conservation measures
2. Management of the various types of degradable and non-degradable waste
3. Water conservation
- 4. Green campus initiatives**
5. Disabled-friendly, barrier free environment

### A. Use of Public and Environment Friendly Vehicle

College understanding environment seriousness, For helping environment college scheduled duty time according to local train with buffer time space because distance of railway station from college campus under 2 km.

## NOTICE

This is to inform all teaching staff, non-teaching and students from 1<sup>st</sup> November 2021, DYPCOA has banned the use of single use plastic in the campus, as an initiative towards environment safety.

Same has also been circulated in eating outlets of the campus and instruction are given to promote maximum use of non-plastic serving dishes for the users.

(Ar. Nupur Chichkhede)  
Academic Co-ordinator

(Ar. Dhanshaj Chaudhari)  
Principal

## 7.1.2

### **Environmental Consciousness and Sustainability and Divyangjan friendly Initiative**

The Institution has facilities and initiatives for

1. Alternate sources of energy and energy conservation measures
2. Management of the various types of degradable and non-degradable waste
3. Water conservation
4. Green campus initiatives
5. **Disabled-friendly, barrier free environment**

### A. Built environment with ramps/lifts for easy access to classrooms

College campus are friendly for disabled person, Disable person can access every studio, library and toilets on ground floor without any hurdle. Disable person can access every corner of the campus without any hurdle. College has two storey structure ground and first. Lift are provided near to entrance.

Cast iron ramp on entrance for disabled person

Geotagged photograph of ramp

Akurdi Pune

### C. Assistive Technology for Disabled Person

Classification of Disability is tough and different, Another challenge for disabled people is adopt to technology. In disability, every disabled person can easily adopt technology except eye sight disabled. College has reserved two PC for that type of disabilities. These two pc have headphone and pc has installed NV access assistance.

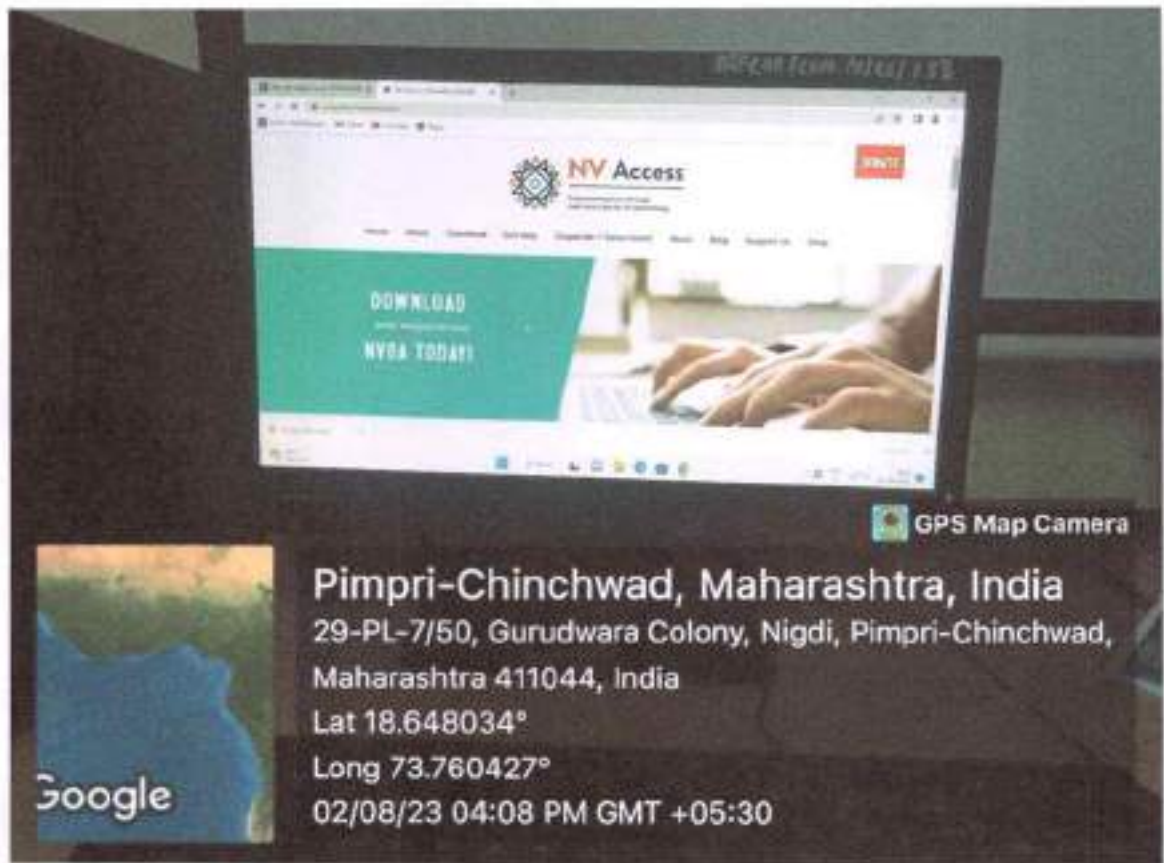

Geotagged photograph of reserved pc for eye sight relevant disabled person.

#### Statement of Purpose for NV Access

1. To facilitate the development of open-source assistive technologies for blind and vision impaired people that are free of charge to the end user.
2. To provide low cost information technology solutions which enhance accessibility for blind and vision impaired people.
3. To act as a fundraising body to support the various projects encompassed by the organisation.
4. To encourage and facilitate contributions to the overall effort of the organisation.
5. To contribute to existing and future efforts aimed at improving accessibility for blind and vision impaired people.
6. To raise awareness and promote the importance of accessibility.

Date- 5<sup>th</sup> Oct 2020

### CIRCULAR

In the light of the plan on the ban of single use plastic products, all the faculty and students are hereby informed that no plastic bags are allowed in the campus. Plastic bags used in our daily life cause short term and long term environmental damage: and health hazards. Further, everyone is requested to kindly cooperate and replace the plastic goods with environment friendly alternatives and protect the earth.

**CIRCULAR**

**SHRAMDAN - A CONCEPT OF DIGNITY OF LABOUR**

1. In order to promote the sense of self discipline, hygiene, cleanliness and the gratitude towards the work of our housekeeping staff, it has been decided to conduct 'ShramdanHour', once every month, commencing Dec 2022. The activity will be planned and promulgated by Dean Administration DYPEC. The 3<sup>rd</sup> Friday of the month in the quarter would be dedicated for this drive as follows:-

- One Shramdan Hour in the month would be used for Campus level drive.
- The next two Shramdan Hours would be used for cleanliness drive within college/ office spaces.

2. All the teaching and non-teaching staff of the Campus, not on essential duties, (viz classes, practicals, examinations etc) in that promulgated hour, will undertake the cleanliness drive in the designated areas.

3. This Shramdan Hour drive would be undertaken from 4.00pm to 5.00 pm. The first such drive is planned on 23<sup>rd</sup> Dec 2022 (Friday) as Campus level Shramdan Hour, as per the details mentioned below:-

SNo	Grouping of Colleges	Sectors In-charge
(a)	DYPCOE YBPP DYP Junior College of Science and Commerce	Hon Capt Mahadeo Darade, AAO
(b)	DYPCOP DYPIOP DYP Academy	Mr Prashant Pol
(c)	DYPIEMR DYPIU	Mr Prakash Salasmwade
(d)	DYPCAAC DYPABM DYPIMCAM DYPCOA	Mr Pawan Kumar

**A Report On Site Visit to Water Treatment Plant and Tree Plantation**  
**Academic Year: 2017-2018**

<b>Organized By</b>	Bachelor of Architecture
<b>Objectives</b>	To visit the Water treatment plant and to understand the process of water treatment and the need to treat the water in order to reduce the presence of disease-causing organisms and associated health risks to an acceptable safe level. Treatment of drinking water is another integral part of the multi-barrier approach. Also to encourage tree plantation which is natural cleanser of water and air.

**A Report On Tree Plantation**

**Academic Year: 2017-2018**

Organized By	Bachelor of Architecture
Objectives	Trees are part and parcel of our life. Like Trees the students are the crucial developers of the future So, in order to welcome the new comers and also to convey the message to develop a sustainable living the trees are planted as a welcome gesture.
Name of Resource Person	Ar. Rupali Borhade
Resource Person Post and Organization	Ar. Rupali Borhade, Assistant Professor
Date & Time	15/12/2017
Venue	Ravet
Program In-Charge/ Subject Faculty	Ar. Mihir Vakharia
Subject	Tree Planting
Student/ Faculty Attended (Year)	120 B. Arch. students and 5 faculties
No. of Students Present	120
Program Approved by	AC
Supporting Staff member	NA
Photograph/ Video Available	Yes
Brief about the (Activity/ Event)	B. Arch. students are given plants to denote that they are vital like the trees of the environment. The trees growth releases Oxygen and the student's growth uplifts the future.
Students Outcome/Remarks	Tree plantation gave the students a new excitement and also provided awareness about the need for the planting of trees which helps the environment.

Encl : Campus Approval Note  
Total amount paid details

# Dr. D. Y. Patil Pratishthan Akurdi

Campus Director Sir,

Approval Note for Distribution of Electricity Expenses to All College of Akurdi Campus.

With reference to above it is proposed to distribute electricity expenses amongst all colleges of Akurdi campus.

Right now DYPCOE paying the whole amount of Electricity bill on monthly basis as per the bills raised by MSEDCL. We may consider the such actual payments made by DYP College of Engineering for the FY. 2021-22 i.e. the total amount of electricity charges is Rs. 8554471/-, a notional basis.

In order to have proper distribution of Electricity charges amongst all the colleges and also to justify their P/L Expenses Head, we propose to distribute it in proportionate to the intake capacity of individual colleges, so that the percentage of burden can be shared as per following table.

Sr. No.	College Name	Intake of First Year	% of Share	Notional exp. based on FY. 2021-22
1	DYPCOP	235	9	675390
2	DYPIEMR	540	20	1551960
3	DYPCOE	952	35	2736048
4	DYPCAAC	90	3	948420
5	DYPIOP	60	2	172440
6	DYPCOA	140	5	402390
7	DYPIMCA	300	11	860743
8	DYPABM	120	4	344880
9	YBPP	300	11	862200
	Total	2737	100	8554471

Please Approve the Same, as recommended to distribute electrical expenses in above proportion for the FY 2022-23.

  
Mr. B H Sharma  
Chief Finance Officer

# An Urban Built Form and its Microclimate on Urban Heat Island

Nikhil P. Mehare<sup>1</sup> and Mahendra Joshi<sup>2</sup>

Lovely Professional University, Phagwara, Punjab, India

(Received 20 September, 2021, Accepted 3 October, 2021)

## ABSTRACT

Many elements, such as meteorological factors and city features, contribute to the establishment of urban heat islands. The city parameters, such as low albedo materials, urban geometry, building density, and impervious heat, and the like, are the most important factors that are responsible for the formation of it. Urban climate is becoming a complex issue locally and globally. There are many variables such as built environment, design model, urban morphology, density, vegetation cover, building height, orientation, distance between buildings, amount of sunlight on the road surface, wind direction, etc. Street-level conditions play a role in creating the city's thermal microclimate. This paper reviews previously published studies in this paper on the shape of built-up urban morphology and its microclimate on urban heat islands.

**Keywords:** Street Canyons, Sky View Factor, Urban Microclimate, Urban Heat Island

## Introduction

Cities are the engines of growth, owing mostly to the expansion of borders caused by demographic, economic, and infrastructure growth. Because of increased urban temperatures, these results differ in terms of microclimate. Many elements, including shape, shape, urban density, water level, and surface, impact the microclimate of a city open area (Shishegar, 2013). Oke's urban heat island parametric model indicated that increasing population density and urban temperature in city regions. There is a clear link between population expansion and the intensity of urban heat islands. An increase in the amount of energy used to heat and cool buildings (Oke, 1981).

Several studies on outdoor thermal comfort, urban canyon building heights with different objectives, and analysis methods have been carried out in many regions. For example, studies by Oke (1981),

Barring *et al.* (1985), Kusaka and Kimura (2004), Takabayashi and Moriyama (2012), Allegrini *et al.* (2012), Shishegar (2013), Doolman *et al.* (2014), (Gal, 2014), Hachimi *et al.* (2020), Al Saour El Hat *et al.* (2020), (Mughal *et al.* 2020).

The purpose of this work is to review the literature and current evidence on the morphology of urban buildings and on the geometric aspects of their microclimate. This white paper also focuses on out-

Fig. 1. L, B & H in the canyon and its SVF. Source: (Fitz, 2013).

[BACK](#)

In all of its undertakings, the College is dedicated to sustainable development. It intends to streamline socially acceptable methods of energy usage and conservation under its purview.

**Policy statement :**

The College's Environment and Energy Usage Policy's primary goal is to manage energy in such a way as to reduce its negative environmental effects. This institution's varied activities and all of its stakeholders must adhere to this environment and energy policy, which is mandatory on all of the institution's parts.

To encourage eco-friendly and sustainable practices, both on and off the campus, the college envisions a clean and green campus. In its everyday operations, it concentrates on streamlining ethical waste management procedures as well as water management and conservation activities. In an effort to address the energy issue, it looks into alternative natural resources as well as renewable energy sources. By incorporating efficiency and environmental consciousness into our daily actions, this will allow us to understand our responsibilities and dedication to the protection of natural resources and to their mindful usage. The environment and energy policy will assist us in integrating environmental awareness and efficiency into our daily actions, assisting us in realizing our responsibilities and dedication to the protection of natural resources.

**Objectives:**

- To raise awareness of environmental issues.
- To be aware of one's need to practice energy saving.
- To put in place appropriate waste management practices.
- To cut back on trash generation across all activities and programmes on campus.
- In order to set up practices for water management and conservation.
- To promote environmentally friendly behaviors on campus and outside.
- To maintain campus sanitization and cleanliness.
- To Create a Clean, Healthy Atmosphere.
- To generate fertilizer from organic waste.

## **Plan of Implementation/ Practices**

The areas listed below should be taken into account while streamlining practices for energy and environmental conservation:

- A. Energy conservation and management
- B. Waste management -Solid, Liquid & E-Waste Management,
- C. Water Conservation and Management.
- D. Clean & Green Campus.
- E. Paperless operating procedures.
- F. Ban on plastics use on the Campus.
- G. Environment awareness activities

### **A. Energy conservation and management**

1. To generate energy through On-grid solar PV System
2. To utilize and install LED lighting on the college campus in order to conserve electricity.
3. To allocate funds to appliances that are energy-efficient.
4. Save energy labels and posters have been placed around the college to raise awareness of the importance of minor acts.
5. It is recommended to use natural lighting and ventilation wherever available.

### **B. Waste management -Solid, Liquid & E-Waste Management,**

1. Waste source separation in all directions around the campus.
2. Exercise the 4 R's. Wherever possible, practice Reduce, Reuse, Recycle, and Refuse.
3. Cut back on campus garbage output.
4. A sanitary napkin vending disposal device and incinerator are installed and in operation.
5. Follow environmentally friendly procedures in all of your regular operations.
6. Prefer using eco-friendly material for your bags.
7. Eco-friendly products and materials are preferred for packaging, décor, gifts, mementos, and congratulating guests at various programmes.

### **C. Water Conservation and Management.**

1. To manage and conserve water by using a rainwater recharge pit.
2. Leaks in taps and pipelines are routinely patched and repaired.
3. Installation of aerator in faucet for saving water.
4. Establishing native plants and plants that use less water on the college campus.
5. The College has Save Water labels and posters up in numerous locations to raise awareness of the importance of simple acts.
6. Organizing water conservation initiatives to raise awareness among the campus's teachers and students through poster competition, skits etc.
7. Employing water-saving faucets and nozzles in place of sanitary fittings.

### **D. Clean & Green Campus.**

1. The native trees and plants provide the area a respectable amount of green cover. The college wants to create a more respectable environment.
2. To organize an initiative for tree plantation.
3. To start a club for nature conservation
4. To utilize environmentally friendly vehicles, such as bicycles, public transit, carpooling and pedestrian-friendly roadways, in order to lower local air pollution emissions.
5. To preserve sanitization and cleanliness over the Campus.

### **E. Paperless operating procedures.**

1. E-office procedures ERP can help you transition to a paperless workplace by promoting communication through email and other online channels.
2. Document digital storage using Google Account storage.
3. To create Google Classrooms and Whatsapp groups for each subject to facilitate communication and the exchange of course materials.
4. To have college-related social media accounts, such as an Instagram or YouTube channel.
5. to have a college website that is fully functional.

#### **F. Ban on plastics Use on the Campus**

1. To ban the use of single-use plastics on campus in an effort to create a plastic-free Campus.
2. To run campaigns to raise awareness of the dangers of single-use plastic.
3. Use the 4 R's. wherever possible, practice Reduce, Reuse, Recycle, and Refuse.
4. Use environmentally friendly procedures such as tree plantation, use of jute bags etc. in all of your regular tasks.
5. Choose to choose eco-friendly material for your bags.
6. Choosing eco-friendly products and materials over conventional ones for packaging, decorations, gifts, and ceremonies honoring guests.
7. Engaging in environmental activism and awareness-raising projects.

The College through its academic subject, Environmental Education is devoted to the cause of environmental awareness, to undertake green initiatives, and to conduct green literacy programmes to save energy and to protect the environment.

As part of their projects and assignments, students participate in a variety of awareness-raising events and programs at their Classrooms.

To provide chances for both faculties and students to participate in activities that promote environmental conservation.

#### **Conclusion:**

The aforementioned techniques and methods of execution are flexible depending on the situation and demands of the moment. All students, faculty, and college personnel shall be informed of this policy. To make the college campus green, clean, and eco-friendly, all stakeholders must adhere
