<b>Photograph/ Video Available</b>	Yes
<b>Brief about the (Activity/ Event)</b>	The workshop is meant for architectural students and young professionals who want to authentically and holistically understand the theory of architecture and "feel" the eternal principles of architecture through experimentation. The aim of this workshop is to allow students to have a spatial experience towards design thinking, through various playful activities.
<b>Students Outcome/Remarks</b>	Enabled the students to learn the design process with the help of hand on experience and experiments with spaces. Explored the relationship between design process and execution of a design.  The students understood how architectural principles are related to their surrounding in relation to physical context.
