REPORT ON –WORKSHOP

Title: Fold-Unfold

Day & Date: 25th Feb 2019 to 27th Feb 2019 **Time:** 9am – 4pm

Type: curricular

Venue: Smt. Kashibai Navle College of Architecture, Ambegaon, Pune

Organised by: Smt. Kashibai Navle College of Architecture, Ambegaon, Pune,

Resource person: Ar. Shreyas Khinvasara

Attended by: No of students attended: 80

A. Summary: 300 words

Origami workshop was conducted at SKNCOA, PUNE by Ar. Shreyas Khinvasara and Ar. Trupti Lohar. Ar. Shreyas Khinvasara, an origami expert, is an interior architect, graduating from CEPT and currently the Design Director and Partner at ELEMENTAL PRAXIS LAB. The workshop was based on integration of origami craft and parametric design techniques to create space making and surface narrative elements. Students have explored the rules and shape grammar techniques in geometrical patterns with paper folds that is origami craft. Students also had hands-on exploration and implementation of 2-D geometrical patterns into 3-D paper folds with modules and its various ways of self fabrication and interlocking methods of modules. The workshop highlighted myriad geometric and mathematical complexities using Origami. He also taught some hacks and tricks regarding the folds of origami. These helped students to create some more beautiful models. This was a three days workshop conducted from 25 Feb 2019 to 27 Feb 2019 as part of the Annual Exhibition and Workshop of SKNCOA. The Annual event was titled as 'QUEST'.

B. Outcome: 200 words

During the workshop, the students went on to create an assortment of 3D objects from sheets of textured paper. The major learning outcome of this workshop was to help students explore the innumerable avenues of incorporating the art of Origami to infinite design problems they might face as designers. The students were able to create various objects from paper. The highlight included deciphering of interlocking modules that created free standing facades, in various patterns. These were then mounted on to the interior walls of the college and give experiential learning of interior space dynamics. This improved students' aptitude and perspective and heightened their aesthetic sensibilities and abilities. At the end of the workshop, origami helped to provide an interface to gain cognitive experience in spatial configurations and finding form.

ORGANISATION INFORMATION

Sketch Art – SKA Architects, Urban Planners and Interior Designers was formally incorporated in the year 2012, in Pune, (a proprietary firm was in existence since 2010) from a long standing alliance between fellow students and architects, Shashank Revanwar, Ketan Waikar and other associate designers, bringing together their diverse experiences in India and around the world. Since its inception the firm has been involved in various Architecture, Interior design, Landscape and Urban projects in the Pune and elsewhere. Depending on the project, the firm also collaborates with a wide variety of professionals and professional agencies specializing in specific design and technical fields. Our work is a continuous investigation of design and an effort to find the unknown freedoms that exist within the particular restrictions of each new and individual project. Each new project builds upon the understandings developed in the previous ones. But each project is also an independent project and no aesthetic, however dear to us is ever imposed on a project without understanding its appropriateness for that particular project.

Dr. D. Y. Patil Prathishthan's, Padmashree Dr. D.Y.
